

Installation Engineer/ Installateur Polyvalent

The Opportunity

We have a unique opportunity for a talented individual to join a fast growing start-up as Installation Engineer.

Due to the significant increase of demand for our projects, we are looking for a new person to help deploy our solutions with our third-party partners at customers' premises. The Installation Engineer will be tasked with working closely with our project team to plan/execute/maintain our customer installations. This role is essential to ensure the quality of data collected as our customers take multimillion decision based on the data. This position will be located in Belgium or UK.

The Company

Amoobi is a flourishing and growing company, looking for the best employees to help us facilitate a revolution in retail, by optimizing store and category layouts to customer behaviour. Amoobi is a leading international provider of in-store optimization based on customer behavior data, through the use of various technologies offering new data sources (people tracking via automated camera analytics, Bluetooth and Wi-Fi detection etc.) and our staff's retail expertise. Our projects vary from concept store improvement, store estate clustering, customer service optimization, store in store business cases, store performance check-ups, category reviews and many more. We provide not just data analytics, but add value by interpreting the data and helping our clients convert these insights into strategic actions. We work with top retailers in Grocery, Consumer Goods, DIY and Electronics: Walmart Group, Tesco Group, IKEA, Media Markt, Carrefour, Delhaize, Metro Group amongst others.

Your fit with Amoobi's culture is a key success factor to join the team. At Amoobi, we strive to provide industry leading quality in everything we do. We reach that through our commitment to support our fellow co-workers and to deliver the best insights for our clients. Above everything, we focus on the team and our ability to progress together while

having FUN. To apply to Amoobi, consider how you can bring fun to the team and help us deliver high quality insights, via an extraordinary commitment to the team and to our mission.

Desired Skills and Experience

The ideal candidate will have the following experience:

- You have between 2 and 10 years of experience in a technical environment
- You are very comfortable with a computer.
- Experience with low voltage wiring (Cat5e-7 and fiber a plus)
- Good understanding the enterprise networking basics
- Ability to understand floor plan drawings (Visio or some drawing software)
- Past experience working under strict deadlines at a physical construction site
- Experience in retail is a plus
- Supervising contractors onsite or remotely to produce desired results

The ideal candidate will also possess the following skills:

- Be able to travel and work on night shift
- Process-oriented, be able to provide installation report
- Experience with both Windows and Linux environments
- Knowledge of IP networking
- Basic knowledge of SQL is a plus
- Be able to troubleshoot network connectivity issues
- Ability to work independently
- Stress resistant and meticulous

Finally, the candidate should share our company values:

- Strong commitment to quality
- Team player
- Work hard & play hard
- Commitment to deliver
- Honesty
